

DELA OVER-SUBSCRIBES LOAN BY 13 PER CENT

Fourth Victory Loan Has 257 Applications For A Total Sum Of \$59,900.00

Closing days of the Fourth Victory Loan campaign saw subscriptions pass the quota of \$50,000.00 for the Delia district, set by Calgary headquarters for Southern Alberta.

The number of individual subscribers has also increased to a gratifying extent, there being 257 applications for the new loan as compared with 194 for the Third Victory Loan, and 186 for the Second Victory Loan.

While the figure of \$59,900.00 is the latest obtainable, it is confidently predicted by officials that more applications are to come in, there being several known to have been made but not yet brought into local headquarters.

Ottawa, Week by Week (By DEAN WILSON)

New Developments Coming

The choice of the former provincial secretary, Hon. Harry Nixon, as permanent secretary of the Liberal party of Ontario in succession to the Hon. Mitchell Hepburn is looked upon with great significance in political circles along Parliament Hill, and well-informed observers expect this choice will bring interesting news in the future, particularly regarding the relationship between the government of Ontario and the Federal government in Ottawa.

Under former Premier Mitchell Hepburn, there was a feeling of constant and growing hostility which reached a fever in recent times. However, the new Liberal party leader, Hon. Harry Nixon, who was favored strongly by the Federal Liberals at the recent convention, has always been on very good terms with Premier Mackenzie King personally and with all other powerful forces in the nation's capital. In fact, it is now recalled that Hon. Harry Nixon was only Minister of the Hepburn cabinet who was present on the platform with Premier King in an important political meeting in Toronto during the 1940 electoral campaign. Therefore, under the leadership of Harry Nixon, it is believed that not only will a close, friendly relationship result between the two political camps, but this may bring new developments in enlightening the people in regard to elections.

A Warning

After a complaint was made that the government at Ottawa was not providing the province of Prince Edward Island, with adequate ferry service to the mainland, and that proper steps had been taken to replace the ships laid out long ago, Hon. J. L. Ralston, Minister of National Transport, in a maiden speech at Prince Edward Island, made an important statement that not only was no person more interested in obtaining the best ferry service than himself, but: "If anybody has a boat that will be the purpose, which we will be, better or steel, we will have it."

He emphasized in no uncertain language, that the time it would require to build a new ferry, or cargo ship or sight coast vessel, and he pointed out that the Canadian nation was such that winning the war was more important than anything else, as especially since he considered "the Battle of the Atlantic will be the biggest battle of 1943."

Absentment

The English method of taxing a person for the next quarter on his total earnings in the previous quarter of the year has been suggested by a member of Parliament in order to defeat his opponent in the person, knowing what he would be taxed under all such circumstances, would not be inclined to do any work under this plan. This suggestion, which has not been discussed as thoroughly as it

Minutes M.D. Council of Morrin, No. 277

The second meeting of the Council of the Municipal District of Morrin, No. 277, was held at Rowley on Thursday, April 28, 1943, at 10:45 a.m. All councillors were present except com. Edwards.

Minutes of the last meeting were read and approved, on motion of com. Waters.

Ministerial Order changing the name of the municipality from the Municipal District of Morrin, No. 277, to the Municipal District of Starland, No. 277, was read and approved.

Wm. A. Lawrence presented his appeal re claim for damages on impounded cattle presented by Wm. Bulchinsky, and it was moved by com. Smith and carried that this matter be placed in the hands of com. Smith, to report back at next meeting.

Process Is Being Developed

There is a hope that a process for extracting oil from the tar sands in Alberta would be developed by autumn. This was reported by Hon. C. D. Howe, Minister and Supply Minister, who stated that \$500,000 had been appropriated for the plant. "We have the best men we can lay our hands on," he declared, "but one would have to be very optimistic to believe that we will be able to start any large scale construction there before the spring of 1944." He continued to state that every known process for extracting tar and oil, and that the fact that the process is being developed is a very important one.

Com. Edwards took the floor, and stated that he had been told that the fact that the process is being developed is a very important one.

Com. Smith and carried, that the regulation from the House Municipal District of Morrin, No. 277, be read and approved.

Com. Edwards took the floor, and stated that he had been told that the fact that the process is being developed is a very important one.

Provide More Labor

It is evident now upon Parliament Hill that all conscientious objectors to the war will be used fully in the national interest in order to provide more labor for certain essential industries.

"For some time some of the conscientious objectors have been ordered to report for alternative service in certain camps," said Hon. Humphrey Mitchell, Labor Minister. It was shown that a total of 1,275 conscientious objectors were employed in 20 camps in a year ago, though at that time about 2,188 had not been called out. In addition, conscientious objectors are being used in the war where this was advisable, being paid as much as \$35 a month, though anything over \$35 a month goes to the Red Cross Society.

More About Beer

The widespread publicity throughout Canada that there is almost or practically "no beer" in this country, comparatively speaking, under the government's present policies received a sharp set back in the nation's capital. "Before the war the government had received about 62,000,000 or 63,000,000 gallons a year," said Hon. Colin Gibson, Minister of National Revenue, in outlining an explanation to members of the House of Commons. "At the present time, the amount permitted for sale is 88,000,000 gallons." So there is a considerable quantity of beer in the country.

Britain and U.S. Trade

In the first three months of war, it is estimated, British Empire war production was valued at \$1,000,000,000, considerably more than the U.S. and Great Britain combined.

SE 25-17-4 to New Geo Gold, one third sold, \$3,850.

Moved by com. Carter that the above account be read and approved to transcribe the London 306 accounts from the Royal Bank at House.

Moved by Rev. McPherson and carried, that if the arrears of taxes on W. J. 152-20-10 is not paid until the same is taken by the municipality for disposal on estate.

Moved by com. Edwards and carried, that the account of the Council Association of 1943, the sum of \$200.00 to L. R. Rennie, of Mounson, be paid.

Wm. J. Gagner, A. P. Anderson, and C. K. Jones presented a license selling petition requesting the council to arrange for a vote of the municipality to decide the location of the municipal office.

After some discussion it was moved

by com. Smith and carried, that the subject of the approval of the Minister of Municipal Affairs, a plebiscite be submitted to the ratepayers of the municipality to decide the location of the municipal office.

For: Carter, Edwards, Smith, Agland, Waters, McPherson.

Moved by com. Waters that the application for Old Age Pension of J. P. Kelly, Rimmer, be approved by the council. Carried.

Moved by com. Waters and carried,

that the council co-operate with the Board of the Drumheller School Division No. 30 in transmuting the school at the location of the Incineration and a vaccination where required.

Moved by com. Edwards and carried, that a refund in the sum of \$117.56 be made to the necessary by resolution on request of overpayment of taxes of the West End 32-20-17-4.

Moved by Rev. McPherson and carried,

that the secretary-treasurer be authorized to raise the amount estimated, namely, \$25,355.65 for municipal purposes, by a levy on all rateable property within the municipality of eight (8) mills on the dollar of assessed value, and that the necessary By-law be passed.

By-law No. 54 was accordingly given readings and passed unanimously.

Moved by com. Waters and carried,

that the necessary By-law be passed. (Continued on back page)

Moved by Rev. McPherson and carried,

that the necessary By-law be passed to authorize the current tax levy for the Drumheller Hospital District at a rate of five mills on the dollar, and that the necessary By-law be passed to authorize the current tax levy for the Drumheller School Division within the boundaries of the municipality, and that portion of the Drumheller School District within the boundaries of the municipality, as follows:

Drumheller School Division, No. 30—12 mills

Drumheller School Division, No. 26—12 mills

Drumheller School District, No. 27-17-4—12 mills

By-law No. 3 was accordingly given three readings and passed unanimously.

Moved by com. Waters and carried,

that the necessary By-law be passed to authorize the current tax levy for the Drumheller Hospital District at a rate of five mills on the dollar, and that the necessary By-law be passed to authorize the current tax levy for the Drumheller School Division within the boundaries of the municipality, as follows:

Drumheller School Division, No. 30—12 mills

Drumheller School Division, No. 26—12 mills

Drumheller School District, No. 27-17-4—12 mills

By-law No. 3 was accordingly given three readings and passed unanimously.

Moved by com. Waters and carried,

that the necessary By-law be passed to authorize the current tax levy for the Drumheller Hospital District at a rate of five mills on the dollar, and that the necessary By-law be passed to authorize the current tax levy for the Drumheller School Division within the boundaries of the municipality, as follows:

Drumheller School Division, No. 30—12 mills

Drumheller School Division, No. 26—12 mills

Drumheller School District, No. 27-17-4—12 mills

By-law No. 3 was accordingly given three readings and passed unanimously.

Moved by com. Waters and carried,

that the necessary By-law be passed to authorize the current tax levy for the Drumheller Hospital District at a rate of five mills on the dollar, and that the necessary By-law be passed to authorize the current tax levy for the Drumheller School Division within the boundaries of the municipality, as follows:

Drumheller School Division, No. 30—12 mills

Drumheller School Division, No. 26—12 mills

Drumheller School District, No. 27-17-4—12 mills

By-law No. 3 was accordingly given three readings and passed unanimously.

Moved by com. Waters and carried,

that the necessary By-law be passed to authorize the current tax levy for the Drumheller Hospital District at a rate of five mills on the dollar, and that the necessary By-law be passed to authorize the current tax levy for the Drumheller School Division within the boundaries of the municipality, as follows:

By-law No. 54 was accordingly given readings and unanimously passed.

Moved by com. Waters and carried,

that the necessary By-law be passed. (Continued on back page)

U. F. W. A.

The April meeting of the Delia U. F. W. A. was held at the home of Mrs. W. L. Carter, on the usual day, with a good attendance of members and one visitor.

"O Canada!" and a number of other songs were sung, followed by a poem on spring composed by the members, which proved very amusing.

Routine business was discussed. It was decided to have a lecture from the Department of Agriculture, to be given by Dr. Cross, on the 28th of May.

Mrs. B. B. Reid was the program leader, and presented an interesting paper on Horticulture.

Mrs. John Marshall was the winner of the contest.

Meeting adjourned, and a half

hour social period was enjoyed by the hostesses, Mrs. Robt. Milnes and Mrs. John Marshall, served tea.

ROAD CREWS READY FOR SEASON'S WORK

Outlays on roads in southern Alberta will be avoided in carrying out this season's construction program, according to information received by the Alberta Highway Department, which has received a grant of \$200,000 from the federal government.

Just as soon as the weather conditions permit, the 1943 maintenance and construction program will be underway. The amount for construction purposes is \$200,000 in main highways, with \$775,000 for maintenance. Crews and machines are ready.

As a result of a northern survey,

the public works department will recruit the main highway from Banff to the British Columbia border.

In southern Alberta some damage has been caused to highways by spring flood conditions, which have reported at some points.

Provincial authorities point out that municipalities have the power to impose a tax on traffic within their jurisdiction if they find heavy trucks are damaging the roads.

RAPE SEED FOR OIL PRODUCTION

Lethbridge Experimental Station Went to Leth.

Rape is an oil-producing crop which is attracting some attention throughout Canada. The oil produced from rape seed differs distinctly from any other type of oil, and is considered decidedly preferable by men in the navy for marine engines. In fact, no other oil seems to be able to take its place.

Rape is quite easily grown in

the west, and for the past several years has given satisfaction from that standpoint, particularly for hope and cheap. The Delia Rape variety is the one generally chosen for that purpose. This is a biennial type of plant which produces only a heavy leaf growth for the first year. The annual type of rape is the one preferred for oil production purposes, and of the seed stocks of this type tested thus far in Canada, the one designated "Large Black Argosil" has given best results. This variety requires from 75 to 90 days to ripen seed, and while it grows best in districts where the climate is abundant there is good reason to believe that it should give satisfactory results in Southern Alberta under irrigation. Seed produced in past seasons on experimental farms in Eastern Canada was found to be equally as good in oil content and quality as that produced in the Argentine.

On account of the scarcity of seed,

the acreage of rape grown in Western Canada for oil production this season will undoubtedly be very small. Those interested in the production of it in future years would be well advised to observe it growing in the experimental plots at the Lethbridge Experimental Station this season.

Five Million Spent in Alberta

MONTREAL, May 8.—Within the Alberta area, Canadian National Railway estimates that some \$5,000,000 was expended in the province last year, says Dr. Mack. For example, the railway spent \$1,000,000 on the new line from Calgary to Edmonton, and \$4,000,000 on the new line from Edmonton to Regina.

WHEAT ACREAGE REDUCTION

Farmers of the Prairie Provinces, including the Peace River and Creston areas of British Columbia, are urged to divert wheat acreage to the production of any other crops or to summerfallow in 1943, may claim payment for doing so.

Payment of \$2.00 may be made for each acre

by which the wheat seeded on any farm in 1943 is below that seeded on such farm in 1940. If there was no wheat on a farm in 1940, there was wheat in 1939, the 1939 acreage may be used instead of those of 1940. Any crops or summerfallow may be substituted for wheat, but payment will not be made on abandoned lands.

Payment on any farm is limited to an acreage not greater than 80%

of the total cultivated acreage of such farm.

To obtain payment farmers must make a

sworn statement of claim immediately seeing it completed. They should take to do so NOT LATER THAN JUNE 30th.

Any farmer who did not apply for Wheat Acreage Reduction payment

either 1941 or 1942 and intends to do so in 1943 must notify his municipality of his intention before May 31, and then make his claim after seeing.

Forms are available in the offices of the municipalities or direct from

offices of the Wheat Acreage Reduction Administration in Winnipeg, Regina and Edmonton.

Statements of claim may be submitted to Municipalities or to

Offices especially arranged to receive them in localities not served by municipalities. Delay in making claims should be avoided; they may be filed immediately seeing it completed. Persons having interests in farms as landlords may submit applications at once.

DOMINION DEPARTMENT OF AGRICULTURE, OTTAWA

HONORABLE J. G. GARDINER,
Minister

C. E. H. BARTON,
Deputy Minister

RE-ESTABLISHMENT COMMITTEE TOLD WHAT IS REQUIRED FOR A CONTENTED FARM POPULATION

Ottawa.—The requirements of a prosperous, contented farm population, enlarged in number and enjoying more and more the privilege of urban residents, were described by T. G. McKenna, chairman of the board of grain commissioners and head of the sub-committee on agricultural reconstruction.

At the meeting of the House of Commons reconstruction and re-establishment committee.

Provisional premises will be among others who will appear before the committee.

Mr. McKenna said the "self-respecting and competent farmer should not have to go before a desk adjustment board nor should he be expected to give a long-distance point of view that he would have to accept losses or handouts from governments for any purpose whatsoever."

There should be an endeavor in the post-war period, to maintain a parity of prices between what the farmer gets for what he sells and what he pays for what he buys.

As to the post-war, Mr. McKenna's brief today if his opening periods is that the farmer should be able to make his own decisions, but that the government should be able to make his own decisions.

Mr. McKenna said the "self-respecting and competent farmer should not have to go before a desk adjustment board nor should he be expected to give a long-distance point of view that he would have to accept losses or handouts from governments for any purpose whatsoever."

AIR CADETS

Summer Camps To Be Held At Various Training Camps

Windsor, Ont., June 10.—New Services—Canada's future air warriors, trainees at air camps, 3,000 strong, in No. 2 Training Camp, Royal Canadian Air Force, will get a full-time education while they learn to fly. The program of instruction is being given by the Royal Canadian Air Force.

Front of the vigorous expansion of the air force, the government has announced that 47 squadrons will be inspected—a long stride from the time that year when there were only 17 squadrons in the command.

Flight Lieut. H. V. Bell and Flying Officer J. B. Hughes, Commanding Officers, will be the main staff of instruction. Wherever possible, air cadets will be relieved by the Royal Canadian Air Force.

Squadrons have been advised to have a list of trainees for the inspection.

FIGHT FOR ALLIES

Navies Of German-Occupied Countries Have 220 Ships

London.—The Admiralty said that the navies of the German-occupied countries which are fighting with the United Nations total 220 combat ships and 25,000 men.

The Royal Netherlands navy had 63 ships and 4,600 men.

Others include: Fighting frigates, 40 ships and 4,500 men; Norwegian, 55 ships and 5,100 men; Greek, 35 ships and 5,500 men; Polish, 12 ships and 2,600 men; Yugoslav, three ships and 200 men; Italian, seven ships and 300 men.

The ship range from cruisers down to minesweepers.

It was announced that a Danish naval force had been formed to join the Allied forces.

In London

General George P. Venter, arrived recently in London from the over his post as Canadian minister in London in Allied governments and Canadian representation on the French national committee.

General George P. Venter, arrived recently in London from the over his post as Canadian minister in London in Allied governments and Canadian representation on the French national committee.

CONSERVING FUEL

Approximately 20,000,000 Pounds Saved In War By Motorists

Tuesday

Ottawa.—A prize road spokesman said that Canada's first "fuelless" motorist, who saved 20,000,000 pounds of fuel in the last year, has been named.

The spokesman estimated that a "fuelless" motorist, who saved 20,000,000 pounds of fuel in the last year, has been named.

RECEIVES GUN

General Montgomery Presented With Anti-Tank Self-Propelled Gun

Montreal.—Gen. Sir Bernard Montgomery is the grand prize of a self-propelled anti-tank gun presented him by employees of the inspection board for services rendered in the cause of freedom.

The commander of the famed British Eighth Army was given the gun, which is complete with spare, by the employees of the inspection board for services rendered in the cause of freedom.

FRONTIER OPENED

Rear.—Two hundred Swiss caught by the frontier at the border April 25 by Italian occupation authorities were also to return as the frontier was opened.

There has been no explanation for the closing.

Grenadiers Inspected By Princess Elizabeth

Princess Elizabeth, daughter of King George and Queen Elizabeth, inspected the Grenadiers of the British House of Commons.

It is an interview with The Canadian Press Mr. Weston said Canada had a great interest in the British Grenadiers.

Canada Urged To Arrange For More Settlers

Urging a review of what settlement among farmers, Mr. McKenna said that the government should be able to make his own decisions.

Mr. McKenna said the "self-respecting and competent farmer should not have to go before a desk adjustment board nor should he be expected to give a long-distance point of view that he would have to accept losses or handouts from governments for any purpose whatsoever."

Canada Urged To Arrange For More Settlers

Ottawa.—Anited mass immigration of British settlers to Canada immediately the war is over was urged today by Canada's future air warriors, trainees at air camps, 3,000 strong, in No. 2 Training Camp, Royal Canadian Air Force, will get a full-time education while they learn to fly.

Mr. McKenna said that the government should be able to make his own decisions.
